

# ABB high-voltage cable system brings renewable energy to more than a million people Walney Extension Wind Farm will be one of the biggest in the world

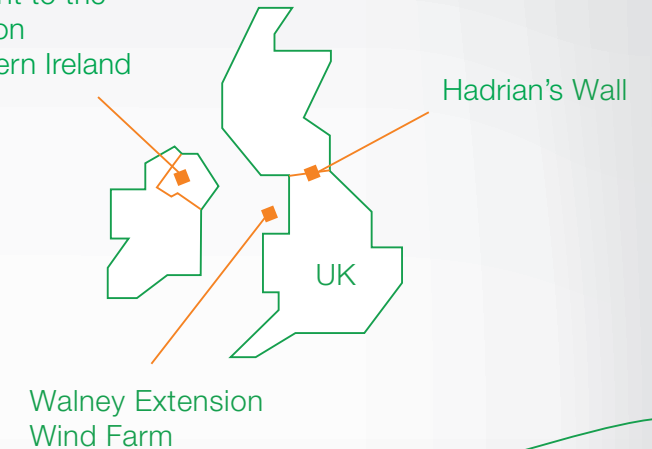

Both Walney Extension  
(generating 660 MW)  
and the existing wind farm  
(generating 367 MW)  
will together be capable  
of providing over

**800,000**  
households with  
green energy

Over **180 km**  
of high-voltage cable  
under sea and ground

Equivalent to the  
population  
of Northern Ireland

**1.5** ×

Approximately the same distance as traveling 1.5 times along  
Hadrian's Wall, built by the Romans across Northern England.
